

## Visit Hong Kong Science Museum

On Tuesday morning, Grace and her classmates visit the Hong Kong Science Museum. They go there by school bus. They feel happy and excited. First they go to the dinosaur room. There is a big tall and green dinosaur in there.

Oh no! John touches the dinosaur. “Stop! You can’t touch it!” Grace says. The dinosaur roars very loudly. The students are scared. Miss Li comes here to help them, she says “Don’t worry, it can’t eat you, it wants to play with you.” Miss Li smiles. Some students clap their hands. They feel very happy.

Finally, the students need to leave the Hong Kong Science Museum, but they are unhappy because they like the dinosaur very much.
