

How to be a good passenger

Hello, everyone. Today I'd like to talk about how to be a good passenger on the ferry.

Before we get on the ferry, we should wait patiently. We shouldn't speak or play music loudly. We should stand properly when we are waiting. We shouldn't play or run when we are waiting for the ferry.

When we are going on the ferry, we should be careful and we should wait patiently for people in need to get on first. On the ferry, we should sit properly and be quiet.

I am proud of being a good passenger on the public transport because people will treat you well when you treat others well. And how about you? Are you proud of being a good citizen?
