

Oh no! Mr Lo

Oh no, Mr Lo!

On Friday, Mr Lo, Betty, Joe and Danny were at the school. They started a Green Earth Project in the classroom. Betty, Joe and Danny felt excited and happy.

Betty, Joe and Danny made a machine to clean up the rubbish. First, they used two big bowls, a huge box and a red cone. The machine was gold and big. Then, the machine walked around and picked up Mr Lo. Oh no! The machine ate Mr Lo! Mr Lo screamed and all the students felt scared. After that, Mr Lo came out from the machine and became tiny. The students were shocked.

Then, the students made another machine to make Mr Lo big again. Finally, they successfully made a machine and Mr Lo was big again. All of them felt relieved.
