

My Hobbies

In my spare time, I enjoy doing indoor activities. On Mondays, I always play the piano with my mum. One of my favorite pieces is 'Spirited Away'. I love this piece of music because it's so interesting.

I also enjoy outdoor activities, like jogging in the playground. On Saturdays, I often go jogging with my mum.

I think hobbies are important to us because we can have fun in our free time. I feel over the moon when I share my hobbies with my best friend or my family.
