

My Dream Job

When I grow up, I want to be a fashion designer. The famous fashion designer Mr Tang Tat Chi, William is my role model. I hope I can be like him when I grow up.

I want to be a fashion designer because I enjoy drawing figures. I am good at drawing. I always try to design clothing for characters I draw.

Fashion designer need creativity so that they can design eye-catching and stylish clothing. I need to practice drawing to draw details well. I need to watch more fashion shows too! That can improve my fashion sense.

I am going to work hard to follow my dream. I will try to draw different types of clothing like dresses, cardigans, skirts... I am going to read more fashion magazines so that I can know what kinds of clothing are popular lately.

I really want to be a fashion designer when I grow up. Although I can't design the finest clothing, I will try my best to design comfortable and pretty clothing for my customers.
